

## NOTA INFORMATIVA

*EADA remains the first classified among Spanish schools*

### The EADA Business School MBA is ranked in the top 20 worldwide for its sustainability

**Barcelona, November 9, 2023.** The Corporate Knights organization has published its annual **Better World MBA Ranking**, placing [EADA Business School](#) among the 20 best schools in the world, specifically in position 18.

The [MBA programme](#) stands out for instilling a holistic purpose in participants and ensuring they have the skills and values to build a more inclusive economy that benefits society. ***“We can only be proud that both EADA Business School and the International MBA program have received this global recognition for their sensitivity and dedication to sustainability,”*** concludes Ella Boniuk, director of the International MBA program at EADA Business School.

To determine the ranking, Corporate Knights evaluated 209 programs from different business schools, including the top 100 global MBA programs in the 2023 Financial Times ranking.

Founded in 2002 and based in Toronto, Corporate Knights is a research institution focused on clean capitalism, an economic system that incorporates economic and ecological factors. It is known for its transparent rankings in the field of corporate sustainability.

**EADA Business School Barcelona** was created in 1957 as an independent institution, both from an ideological and economic point of view. In addition to appearing in the renowned international rankings of the Financial Times or The Economist, it has the EQUIS accreditation granted by the EFMD (European Foundation for Management Development) as well as the AMBA, which recognizes the quality of MBA programs.
